

Fast Plants Spray

Vitalizing plant aid for young plants

Ideal to use on:

- Seedlings • Young plants
- Cuttings • Mother plants

With Fast Plants:

- nutrients are unlocked more easily, increasing receptivity right from the start
- plants produce higher amounts of CO₂ and other beneficial matter, which lets them grow faster
- nutrient deficiencies are removed reliably

Fast Plants offers many advantages:

- clearly better and quicker root development
- no more nutrient deficiencies or stunted growth
- shocks are dealt with more easily, shortening the growing phase
- foliage is visibly vitalized and highly branched
- stress tolerance and heat resistance are increased

Fast Plants is available in the following sizes:

- 100ml spray bottle
- 250ml spray bottle
- 1 l refill bottle
- 5 l canister
- 10 l canister

Application as foliar spray:

We suggest spraying the leaves dripping wet after the lights have gone out.

Seedlings

- spray every two days

Cuttings

- spray every third day

Joung plants

- spray every fifth day

Mother plants

- spray three days before and three days after taking cuttings
